## PERSONAL INFO

- Nationality: Nigeria

## PROFESSIONAL SUMMARY

As a frontend developer currently pursuing a degree, I specialize in building responsive, user-centered web applications. My experience includes creating personal projects using HTML, CSS, JavaScript, and frameworks like React and Tailwind CSS. I focus on crafting scalable components, optimizing performance, and delivering intuitive user experiences. I am passionate about leveraging modern web technologies and continuously expanding my skill set to create visually appealing, functional web solutions.

## EXPERIENCE

### Technical developer

2024 - Now

#### Skilful Online, Nigeria, Ile-Ife

As a Technical Developer at Skilful Online in Nigeria, I was responsible for developing and maintaining web applications and databases for the company's clients. My role involved working closely with project managers and designers to ensure seamless integration of new features and improvements.

- Developed and maintained web applications and databases
- Collaborated with project managers and designers
- Ensured seamless integration of new features
- Improved functionality and efficiency of existing systems
- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Utilized React and Tailwind CSS to build modern, responsive user interfaces, creating reusable components and custom styles to enhance performance and user experience.
